# OMNISPORTS REFERENCE MULTI-USE

Vinyl Sports flooring

Config. Events and multi-use

**Omnisports Reference Multi-use (6.2mm)** combines the performance required for multi-sport practice with static and rolling load resistance.

Omnisports Reference *Multi-use* is classified **P1** according to EN 14904 with a **shock absorption of more than 25%**. This range has exceptional resistance to static loads (chairs, tables, bleachers, etc.) with an indentation performance of less than **0.10 mm** and is therefore an ideal choice for **versatile use**.

This collection benefits from our brand's Top Clean XP surface treatment, for increased durability and economical maintenance. Installation options include our **GreenLay™ installation method, with only 2% of the surface glued**.

The installation of this flooring is recommended for gymnasiums hosting **multi-sport events** (basketball, volleyball, handball, badminton...) and **extra-sport events** (exams, elections, balls, public meetings, community forums...).

**Omnisports Reference Multi-use** is **100% recyclable** and clean waste from installation can be collected, recycled and reintroduced into vinyl flooring production through the **Tarkett ReStart® program**.

Omnisports Reference *Multi-use* is also **100% phthalate-free** and comes with a **15-year warranty**.
