DROPZONE SPECKLE Rubber rolls

Dropzone Speckle (8.0mm) is a **versatile solution** for rubber floorings dedicated to strength, cardio and weight rooms. It has **excellent durability** and **high resistance to mechanical wear** thanks to a **first class choice of raw materials** and high traction properties.

It is **durable** thanks to its 8mm layer made from a **minimum of 90% black recycled rubber granules**.

Dropzone Speckle (8.0mm) is an **ergonomic solution** that provides **extreme comfort**. It helps contribute to the **protection of athletes muscles and joints** during various types of workouts.

It offers **maximum resistance of 40kg*** to falling weights from a height of 2m and **acoustic reduction of 18dB**.

Dropzone Speckle has A+ emission rate and comes with a **3-year warranty**.
