

LUMAFLEX EXTREME LINOSPORT XF² CASE STUDY

SPORT VLAANDEREN HERENTALS

Sport Vlaanderen is a sports hall in Herentals, Belgium that was renovated in 2016 after years of intense use.

This sports facility hosts many amateur athletes, students, local sports clubs and even high-performance athletes.

Sport Vlaanderen choice was Lumaflex Extreme, a combined system that responds to the high expectations of athletes.

The architecture firm BEL Architecten opted for our Lumaflex Extreme sub-construction with a Linosport xf² finishing for extreme resistance and exceptional durability.

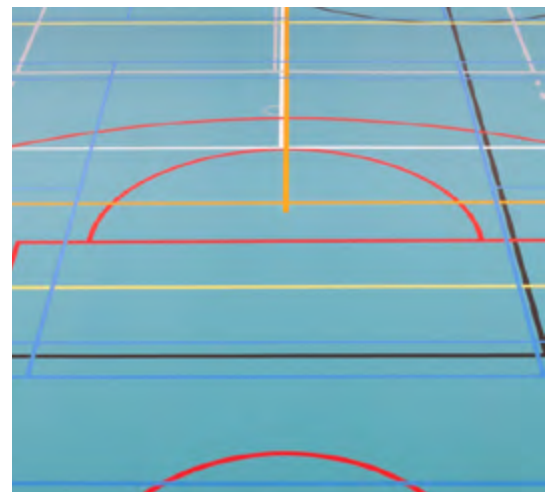

In addition to being high performant, Linosport xf² has excellent environmental properties and benefits from the Cradle to Cradle Silver certification.

THE BEST SOLUTION

MULTIPURPOSE: HIGH-LEVEL MULTISPORTS PRACTICE AND NON-SPORTING EVENTS

WHY THEY CHOSE LUMAFLEX EXTREME:

-  Excellent stability and high shock-absorption levels: ideal for the toughest training sessions.
-  Multipurpose : Non-sporting and sporting events.
-  A large and modern colour palette for a trendy installation.

IN THEIR OWN WORDS...

The elastic sub-construction of Tarkett's Lumaflex range is adapted to practically all sports.

This type of flooring solutions is also very easy to clean and particularly durable.
