

REFLEX M EVOLUTION CASE STUDY

[More information about the product](#)

THE BASKET CENTER

is a unique concept in the Strasbourg region dedicated to **3x3** and **5x5** basketball. It is a brand new meeting place for all enthusiasts of the sport.

The centre has **three courts** fitted with our sports parquet flooring **Reflex M Evolution**, which is **FIBA**-approved (level 1) and complies with the **EN 14904** standard (class A4).

It also hosts non-sporting events.

Our **Protectiles** carpet tile solutions complete the facilities and ensure great performance and looks for the basketball courts.

Strasbourg, France

Project goals

Offer the **best game experience** in a **streamlined space**

Reflex M Evolution
Species: ash 2200 m²

Protectiles
Colour: Anthracite
1000 m²

Architect: OSLO

Why chose Reflex M Evolution

Playing comfort: a simple batten system with all the benefits players want, including the sounds of the basketball court.

Performance: impact absorption > 55% (class A4) from FIBA-approved parquet flooring (level 1).

Appearance: the first installation in France made from ash, resulting in a bright, streamlined design. Its elegance is set off by the unique basketball markings and the choice of a three-colour identity.

They share their experience

At the Basket Center, we are delighted with our Reflex M sports parquet flooring. It combines playing comfort, looks and performance. It's the best! We really stand out from the other basketball facilities in Strasbourg.

Arnaud Rietsch
*Director of the Basket Center
